Asking Price: MAKE AN OFFER

This Air Berth Boat Lift Model M320 is suitable for mono-hull and multi-hull planning boats including, cruisers, skiing boats, go-fast (offshore speed boats) rigid hull inflatable boats (RIBs), centre console fishing boats, flybridge cruisers and catamarans. Only 12 months old the replacement cost for this M320 Model AirBerth would be **USD21,000**. Will consider all reasonable offers.

AirBerth is a great way to keep your boat out of the water and eliminating the hassles of towing, launching, mooring and cleaning. It simply attaches to your current jetty, pontoon or marina berth, giving you instant access to your boat anytime.

- Eliminate the need to anti-foul your boat
- Minimize electrolysis and osmosis on your boat
- High Density Polyethylene plastic construction
- Portability allows for easy relocation
- No submerged metal parts
- Isolated air and water for added safety
